Customer Trade Agreement Summaries — deduction & allowance terms (FY2024)

These summaries govern how customer deductions and allowances are classified. Treatment follows the agreement, not a default.

Deduction classification framework		
Deduction type	Treatment	Basis
Promotional / slotting allowance	Contra-revenue	Agreed promo calendar & slotting schedule
Spoilage / damaged goods	Cost of goods sold	Verified spoilage claim with proof
Shortage / quantity discrepancy	Accounts receivable adjustment	Reconciled delivery vs. PO
Unauthorized deduction	Disputed receivable	Pending customer substantiation

Key customer terms	
Southeast Grocery Group	Net 45; promotional allowance 3% of net sales on agreed programs; slotting per category.
Lowcountry Foodservice	Net 30; spoilage claims accepted with proof; no unauthorized deductions permitted.
Coastal Markets	Net 30; quarterly promo support; shortages reconciled to delivery documents.
Palmetto Wholesale	Net 30; volume rebate at agreed tiers; deductions require pre-authorization.

Unauthorized deductions are held as disputed receivables pending substantiation and are never written off to bad debt by default.
